Dated 8th December 1944

Despatched

Received

General No C 150-51/42-43
No BCH

Enclosure No Two

Sir,

Re Enhanced rates in respect of third stage drainage of Saklespur

Adverting to Government Order No.L.6990-2/M1.77-43-13 dated 13th January 1944 sanctioning the acceptance of the tender of Mr. K.G. Shambulingappa of Saklespur at 20% higher than the previously accepted rates, resulting in an excess of Rs.1,296, the same being met equally by Government and the Saklespur Municipal Council, I have the honour to state that the Sanitary Engineer reports in his letter No 504 dated 10th November 1944 (vide copy of the letter with copy of the enclosure enclosed) that the Contractor has applied for enhancement of rates by 30% over and above the accepted tender rates on account of the rise in the cost of labour and materials Taking into account the data worked out by the Assistant Engineer No 3 Sanitary Sub Division, Hassan the Sanitary Engineer recommends an allround increase of 30% over the estimated rates both for the work already done and the work yet to be done. He reports that work to the extent of Rs 5,500 was done by June 1944 and that the balance work yet remains to be done The enhancement will involve an additional expenditure of Rs 729/- and this will have to be met equally both by the Government and the Saklespur Municipality.

The Deputy Commissioner, Hassan is also addressed this day in the matter to obtain and communicate the view of the Municipal Council in regard to meeting their share of extra cost.

I request you to be so good as to obtain and convey sanction of Government to the enhancement of the tendered rates for the work to 30% over the estimate.

I have the honour to be,
sir,
Your most obedient servant,

Director of Public Health.

BSN.

Copy of the letter No 504 dated 10-11-1944 from the Sanitary Engineer, Bangalore

Re Enhanced rates in respect of third stage drainage of Saklespur

have the honour to state that towards third stage drainage work at Saklespur an estimate of Rs 6,750/- was sanctioned in your No C 150-2 dated 10-8-1942 Tenders for this work were called for Mr K G Sambulingappa was fixed up as his tender was 4% less than the estimated rates This was reported to you in this office No 1117 dated 13-2-1943 Since cement was not then available, the work could not be taken up . The contract was cancelled under orders of Government, vide letter No L 9600/M1.88-42-4 dated 24-3-1943 of the Secretary to Government, Law Department, communicated with your No C 150-10 dated 26/27-3-1943 Subsequently, cement situation eased itself and fresh tenders were called for The work was entrusted to the same contractor at 20% higher than his previously accepted rate, which was 4% less than the estimate rate - This was approved by Government in their Order No L 6990-2/M1 77-43-13 dated 13-1-1944 Cement was issued in December 1943 and the work commenced in January 1944.. Works to the extent of Rs 5,500/- were done by June 1944, and these were paid for at his accepted tender rates Balance of work still remaining to be done aggregate Rs 1,000/- The work is temporarily stopped pending settlement of his claim for further enhancement of rates

The contractor Mr K G.Sambulingappa in his letter dated 3-5-1944 has applied for enhancement of rates by 30% over and above the accepted tender rates, the reasons being that the cost of labour went up threefold and fourfold due to international situation and labour was difficult of being secured, even though labourers were paid very heavily, and that the cost of cement and other materials h also risen abnormally high In these circumstances, he prayed th he may be paid 30% increase over his tender rates which, it is s is being allowed in P W D even in respect of tendered works. o in the alternative, to pay rates based on actual data The As Engineer, No 3 Sany Subdivision, Hassan reports that the rate labour and materials in this locality have gone very high due

international situation, and he recommends that a 30% increase over the sanctioned estimated rates or 14% in excess of his accepted tender rates may be paid The data worked out by the Assistant Engineer, herewith enclosed, shows that the rates for the drain which is the main item of the estimate works up to nearly 45% more than the estimate rates. Since the contractor could not anticipate this unprecedented rise in the cost of labour and materials, and since the actual data itself based on the local rates work up to roughly 45% on the main item ofthe estimate, viz , the construction of drains, I recommend that for works already done and to be done a round increase of 30% over the estimate rates may be paid on all items of work

Anotner request of the contractor is that the old slabs that were being sold to him ~~at~~ as recovered at 0-2-3 per sft with the tender percentage increase thereon, while on this account he has quoted a rate of 0-2-0 per sft This has not been made explicit in any of his tenders as his tender has been a certain percentage on the estimate rates The estimate rate for this item being 0-2-3 per sft , no reduction on this score is called for -

As regards his contention that this being an item of recovery from him, it need not be subject to the percentage increase, it is to be stated that the same increase in rates for the departmental slabs should be paid by the Contractor, and due recoveries at 0-2-3 plus 30% will be made in his bills The sanction of the higher rates recommended would approximately involve an additional expenditure of Rs 729/- as noted below, which will have to be borne equally by Government and the Municipality Early orders of Government may kindly be obtained for payment of enhanced rates for the reasons detailed above, and also orders regarding the apportionment of cost involved therein.

Amount of estimate		s.6,750
30% increase		2,025
	Total	8,775
Excess already approved (Rs 6,750 plus 1,296/-), as per G O No 6990-2 Ml 77-43-13 dated 13-1-1944		Rs.8,046
	Balance Excess Rs	729

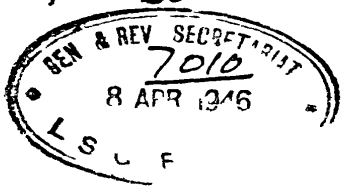
Office of the Chief Engineer for
Roads and Buildings in Mysore,
Bangalore, Dated, the 30 March 1946.



To

The Secretary to Government,
Public Works Department,
Bangalore.

Re:- Settlement of claims in III Stage Drainage Works in Saklespur Town.

Sir,

In returning herewith your letter No.2376 dated 29th November 1945 forwarding for report the petition dated 13-11-1945 of Mr. K.G. Shambulingappa, contractor, Saklespur, presented to the Minister for Education and Public Health in Mysore, Bangalore, I have the honour to state that the tender of Mr.K.G.Shambulingappa who had quoted 4% less than the estimated rates was accepted by the Sanitary Engineer on 6-11-1942 since the cement was not readily available, the work could not be taken up immediately and the contract was recommended to be cancelled by the Director of Public Health in Mysore, Bangalore in his letter No.C.150-7 dated 5th March 1943 and the same was approved by Government in letter No.L. 9600/Ml. 88-42-4 dated 24-3-1943 of the Secretary to Government, Law Department.

Subsequently fresh tenders were called for. The work was again entrusted to the same contractor on 19-11-1943 at 20% higher than his previously accepted rates as approved by Government in their order No.L.6990-2/Ml. 77-43-13 dated 13-1-1944 Cement was issued in December 1943 and the work was commenced in January 1944 Work to the extent of Rs.4,623-11-0 was done by the end of June 44 and paid for at his accepted rates.

The contractor in his letter dated 3-5-1944 addressed to the Sanitary Engineer applied for enhancement of rates by 30% over and above the accepted tender rates and would not proceed with the work. This was recommended by the Director of Public Health to the Law Secretary in his letter No.C.150-63 dated 22-1-1945. As per D.O. letter No.L.7334 dated 23-1-1945 from the Law Secretary to the Director of Public Health (vide copy enclosed) the contractor was addressed by the Sanitary Engineer to intimate whether he is prepared to accept 25% higher than the accepted rates for the

works so far done, while intimating his acceptance to 25% above t the previously accepted rates, he raised two more issues viz., (1) his loss of Rs.1,000/- on account of loss of materials and advances made to the labourers etc., should be made good and (2) the excess recovery of cost of old slabs supplied departmentally may be refunded. As per terms of the contract, this department had no responsibility for the loss said to have been sustained by the contractor. The question of refund of excess recovery of cost of old slabs does not arise, since the terms of the tender are applicable to purchase also, and the contractor has to pay for the materials supplied to him by the Department.

Since the contractor did not proceed with the work, he was asked by the Sanitary Engineer in his letter No.943 dated 22nd November 1945 to be present at the workspot for getting his final claims settled as agreed to by him. The work remaining to be done in the III stage of work is nil, as the balance of work is included in the IV stage.

The extra cost that would be involved by paying 25% higher rates will be Rs.1,156/- and this should be met by both the Municipality and Government.

A copy of this reference is being sent to the Revenue Secretary with a request to communicate sanction to the payment to the contractor, 25% extra for work already done viz., Rs.1,156, and to settle the claims of the contractor.

I have the honour to be,
S i r,
Your most obedient servant,
Sd/- N V Bapat,

Chief Engineer for Roads
and Buildings.

NG.28/3.

Memo No. 8190 dated 3/3/46 7010/L

Copy of the above is for arded with compliments to the Secretary to Government, Revenue Department for information, with reference to D O letter No L.7334/M1 dated 23-1-1945 addressed to the Director of Public Health in Mysore, Bangalore

Sanction of Government may kindly be communicated, to the payment of 25% extra for work done viz , Rs 1,156/- as agreed to by the contractor

The other claims of the contractor are not tenable

Re - Settlement of claims in III Stage Drainage works in Saklespur Town

SECRETARY TO GOVT. PUBLIC WORKS ELEC L & IRYS

In retunning herewith your letter No 2376 dated 29th November 1945 forwarding for report the petition dated 13-11-1945 of Mr K G Shambulingappa, contractor, Saklespur, presented to the Minister for Education and Public Health in Mysore, Bangalore, I have the honour to state that the tender of Mr K G Shambulingappa who had quoted 4% less than the estimated rates was accepted by the Sanitary Engineer on 6-11-1942. Since the cement was not readily available, the work could not be taken up immediately and the contract was recommended to be cancelled by the Director of Public Health in Mysore, Bangalore in his letter No C 150-7 dated 5th March 1943 and the same was approved by Government in letter No L 9600/M1 88-42-4 dated 24-3-1943 of the Secretary to Government, Law Department

2) Subsequently fresh tenders were called for The work was again entrusted to the same contractor on 19-11-1943 at 20% higher than his previously accepted rates as approved by Government in their order No L 6990-2/M1 77-43-13 dated 13-1-1944 Cement was issued in December 1943 and the work was commenced in January 1944 Work to the extent of Rs 4,623-11-0 was done by the end of June 44 and paid for at his accepted rates

3) The contractor in his letter dated 3-5-1944 addressed to the Sanitary Engineer applied for enhancement of rates by 30% over and above the accepted tender rates and would not proceed with the work This was recommended by the Director of Public Health to the Law Secretary in his letter No C 150-63 dated 22-1-1945 As per D O letter No L 7334 dated 23-1-1945 from the Law Secretary to the Director of Public Health (vide copy enclosed) the contractor was addressed by the Sanitary Engineer to intimate whether he is prepared to accept 25% higher than the accepted rates for the

works so far done, while intimating his acceptance to 25% above the previously accepted rates, he raised two more issues viz. (i) his loss of Rs 1,000/- on account of loss of materials and advances made to the labourers etc , should be made good and the excess recovery of cost of old slabs supplied departmentally may be refunded As per terms of the contract, this department had no responsibility for the loss said to have been sustained the contractor The question of refund of excess recovery of cost of old slabs does not arise, since the terms of the tender are applicable to purchase also, and the contractor has to pay for the materials supplied to him by the Department

4) Since the contractor did not proceed with the work, he was asked by the Sanitary Engineer in his letter No 943 dated 22nd November 1945 to be present at the workspot for getting his final claims settled as agreed to by him The work remaining to be done in the III stage of work is nil. as the balance of work is included in the IV stage

5) The extra cost that would be involved by paying 25% higher rates will be Rs 1,156/- and this should be met by both the Municipality and Government

6) A copy of this reference is being sent to the Revenue Secretary with a request to communicate sanction to the payment to the contractor, 25% extra for work already done viz., Rs.1,156/- and to settle the claims of the contractor

I have the honour to be,
S i r,
Your most obedient servant,

Chief Engineer for Roads
and Buildings

NG 28/3.

D.O.Letter No.L.7334 dated 23rd January 1945 from the Law Secretary to Government, to the Director of Public Health in Mysore, Bangalore

With reference to the correspondence ending with your letter No C 150-63 dated 22-1-1945 regarding enhanced rates in respect of the Saklespur Drainage work, I am directed to request you to intimate immediately if the contractor is prepared to accept 25% higher than the accepted rates for the work so far done in this respect If so, the extra cost that would be involved thereby may kindly be intimated

Subject - Re Settlement of claims in III Stage, Drainage ... works in Saklespur Town

NOV 24 19

2376
24/11/45

May it please Your Honour!

That tenders were called for the above works in the year 1942-43 and my tender was accepted Vide Sanitary - Engineer's Order No 1724 dated 6-11-42 and all the materials were collected by me for this work Order to commence work was issued in Memo No 2323 dated 17-~~8-42~~ but cement was not supplied by the department for one year complete and thus a very heavy loss was sustained to me by losing many of materials collected for the purpose and many heavily advanced labourers such as masons, chunners etc , absconded as they could not be given work in time for one year and even the payment for the materials collected by me was not made in spite ofmy several requests

The Sanitary Engineer in his No 4383 dated 10-6-43, asked me if could carry out the work at the rates tendered and accepted already to which I replied in my letter dated 18-8-43 that the delay in carrying out the work was not due to me but for nonsupply of cement by the Department for one year and thus I prayed for an increase in rates of 25% over the tendered rates on account of the then prevailed conditions and there was no response for this letter The Sanitary Engineer visited Saklespur on 28-8-43 in ~~company~~ Company with the Assistant Sanitary Engineer, and discussed with the President, Saklespur Municipality, about the local conditions and the percentage allowed on the works carried out and after a long discussion,, he was kind enough to promise to grant an enhanced rate of 25% over the tendered rates and on this assurity, ordered me to take up the work on hand immediately So, I

I again arranged for masons and labourers advancing them heavily for the second time and promising them heavy wages and sought for instructions and for cement from the Assistant Sanitary Engineer, Hassan, who, to my surprise, and disappointment, intimated to me in his No 419 dated 22-9-43 that an increase of 20% only would be given instead of 25% as promised by the Sanitary Engineer which was also accepted by me.

Finally, having so much of struggles between us, I was informed by the Sanitary Engineer in his No 1086 dated -- 9-10-43 that even 20% cannot be granted and fresh tenders were called for to cancel my tender for this work.

Thereupon, I submitted a Memorial to the Director of Public Health in Mysore, Bangalore, on 4-11-43 representing the above facts and simultaneously submitted my second tender for this work on 13-11-43 to the Sanitary Superintending Engineer, Bureau of Sanitary Engineering, Bangalore, clearly stating that I have done so, without prejudice to my application dated 4-11-43 addressed to the Director of Public Health in Mysore, Bangalore This second tender was also -- accepted Vide Sanitry Superintending Engineer's No 2255 dated 19-11-43.

Since the date of 6-11-42 to 19-11-43(date of acceptance of 1st tender to date of acceptance of 2nd tender) which is exactly one year and 13 days, the loss sustained to me by losing the materials collected and the heavy loss of advances made to masons and chunners etc amounted to nearly Rs 1000/-

The work was commenced in the month of January 1944 and by this time a heavy loss of Rs. 1000/- was sustained to me as -- explained supra, I prayed for enhanced rate of 30% over the 2nd tendered rates in my application dated 3-5-44, as the cost of all the materials, wages of labourers, cost of cement and that of tools and plant fluctuated to extent of more than four -- times than in previous years due to war and for international conditions.

The second tender rate being in excess of 20% over the 1st

1st tender rate, the cost of old slabs as fixed by the Department itself was 0-2-3 pies per S Ft as per 1st tender and this was not accepted by me but my rate was noted to be 0-2-0 per S Ft. But in the tender, initialling to the correction was omitted by oversight In the bill paid to me, the cost of old slabs is recovered at the 2nd tender rate which is 20% in excess of the 1st tender My second tender was not for the cost of old slabs but for the works done by me The recovery of the cost of old slabs could have been made either at 0-2-0 annas per S Ft- as per my first tender or at 0-2-3 pies as per departmental valuation The excess recovery as per rates mentioned in the 2nd tender is quite unjust and not reasonable

Thereupon I submitted my application to the Sanitary Engineer, Bureau of Sanitry Engineering in Mysore, Bangalore on 16-12-44 praying (1) to make good the loss of Rs 1000/- sustained to me for nonsupply of cement in time by the department for one year which resulted in heavy loss of materials and absconding of labourers (2) to refund the excess recovery of the cost of old salbs and (3) to enhance the rate to 30% over the tendered rates already accepted The Sanitary Engineer, in his No 2302 dated 23/27/2/45 asked me if I am agreeable to accept 25% over the accepted rates for the works done by me till then In reply to this, I replied in affirmative on 6-3-45 confirming my acceptance of 25% increase in rates and reminded him of my two above claims for which he had not replied Though this letter of my acceptance was received in his office on 8-3-45 , he again sent in a reminder No 2586 dated 19-3-45 requesting me to intimate as to my willingness to accept 25% increase and for this also I promptly replied on 22-3-45

Since 22-3-45 up-to date, my many applications to the Sanitary Engineer praying (1) to make good the loss of Rs 1000/- (2) to settle my claims at 25% increased rates for the works done since January 1944 and (3) to refund the excess

recovery of cost of old slabs have had no avail upto [redacted] recently, I have strictly stated that I would approach the [redacted] ment in the matter, they have been turning a deaf ear to my requests

Having borrowed a very heavy amount of loans from Bankers and Companies, I have been paying a very heavy interest of 100/- to 150/- per month The inordinate delay in settling my claims will entail in still more further loss to me in the shape of interest which I have to pay to my debtors

Hence, for it please Your Honour to kindly call for the entire records immediately and pass early orders to settle my claims at an early date ? For which act of kindness, I shall ever pray

I beg to remain,

Most please Your Honou

Your most obedient Servant,

Contractor

Saklespur
